## DON'T JUST TAKE HER WORD FOR IT...

"13 years ago I hired Loren as an intern, 30 seconds into the interview. Since then, she's become a driven, powerful, open, relatable force in the radio world she clearly loves so much." - **David Brody, Executive Producer, Elvis Duran and The Morning Show**

"Loren is hard-working, takes her job very seriously, and has one of the smoothest deliveries in broadcast. She loves radio the way it should be loved." - **TJ Taormina, host of The TJ Show**

"Relatable, talented and innovative. A creative problem solver with a relentless work ethic. Loren is a stand-out talent and team member; the kind of personality that makes radio special because they help build the overall brand images necessary to put humor and humanity on the air." - **Talent Coach Steve Reynolds**
